

## Rungnapa Kitiarsa

Centre for Language Studies  
Faculty of Arts & Social Sciences

As a language teacher, seeing how students gradually improve, and successfully learn a new language in a single semester has been truly rewarding for me. To help them achieve their goals, I think my main duty is not only to teach, but also to keep their interest alive in every single class, even though these might be 8 am or 6 pm classes. I always ensure that my lectures and tutorials are interactive, interesting, and fun. Although it is not always easy, the conducive classroom environment I create helps all my students feel encouraged and motivated to learn. I care for and pay attention to every student in my class, so that no one would feel that they are left behind.

### What Students Say...

"She is able to bring out the joy and fun of learning a new language through fun interactive ways which typical lecturers may not achieve. This encourages and pushes students to want to know more instead of wanting to know what is sufficient of the module."

"She is really a very caring teacher. I have learnt a lot of things of the past 13 weeks and she makes an effort to engage every single one of us in class and ensure that all of us are following the lesson at the same pace."

"Clear and effective lectures and tutorials, she makes lectures and tutorials light-hearted and fun."
